

# Our Foundation programmes explained...

## CEG College foundation programmes

Our University Foundation programmes are some of the most intensive, results and student satisfaction-driven programmes available in the UK.

These one-year programmes for international students ensure they meet the entry requirements for a UK university degree course.

The programmes are among our most popular courses and for those students who successfully complete the programme, we can guarantee a university place at one of our partner universities.

Subjects studied: 3-4 subjects, plus English and Mathematics

Assessment: Coursework, externally moderated examinations and IELTS

## FOUNDATIONCAMPUS INTERNATIONAL STUDENT PROGRAMMES

### On-campus foundation programmes

FoundationCampus offers successful international students guaranteed entry to a wide range of degree courses at major UK universities at both undergraduate and Master's level.

Similar to the programmes offered at our colleges, these programmes are taught at the very same universities that the students will be progressing to.

All four centres also offer the **English Language Preparation Programme** for students who need to meet the minimum language requirement of the Foundation or Pre-Master's programme.
