

# CATS Cambridge A level and Foundation Programme University offers 2010

University offers continue to be impressive again this year for our University Foundation and A-level programme students. These offers, including many from Times Top 20 Universities, reflect the success of our personalised learning approach and commitment to counselling students onto the right degree programme for them.

## Our 2009 results:

**38%** of grades at A Level were grade A

**38%** of A-level offers were from Times Top 10 Universities

**72%** of University Foundation offers were from the Times Top 30 Universities

“The tutors at CATS have inspired me to aim for the best universities. I have had mock interviews, tuition in Critical Thinking and subject-specific reading. As English isn’t my first language I feel far more prepared and confident.”

**Maureen Peers De Nieuwburgh, Belgium**
